

What is the Titan Degree Audit (TDA)?

This article covers the basics of the Titan Degree Audit (TDA).

About the Titan Degree Audit

The Titan Degree Audit (TDA) helps keep track of a student's academic progress toward completion of a declared major program. It shows completed coursework at CSUF, transfer courses, and courses in progress. It shows what requirements have been met and remaining requirements needed to complete a degree. As of September 2009, the TDA is the official grad check of candidates for graduation.

The TDA is available for all currently enrolled undergraduate students and new applicants. It is not available for graduate students at this time.

Newly-Admitted First Time Freshmen will not have any courses unless they have college-level test credits (i.e. advanced placement, international baccalaureate) and/or courses.

Newly Admitted Transfer Students will have preliminary evaluation of transfer coursework until the Office of Admissions & Records notifies the student that the evaluation of transfer coursework is complete.

Current students should check their Titan Degree Audit on a regular basis in order to be able to quickly resolve any issues and avoid problems with graduating on time.
