

Student Homepage Fluid Navigation Overview

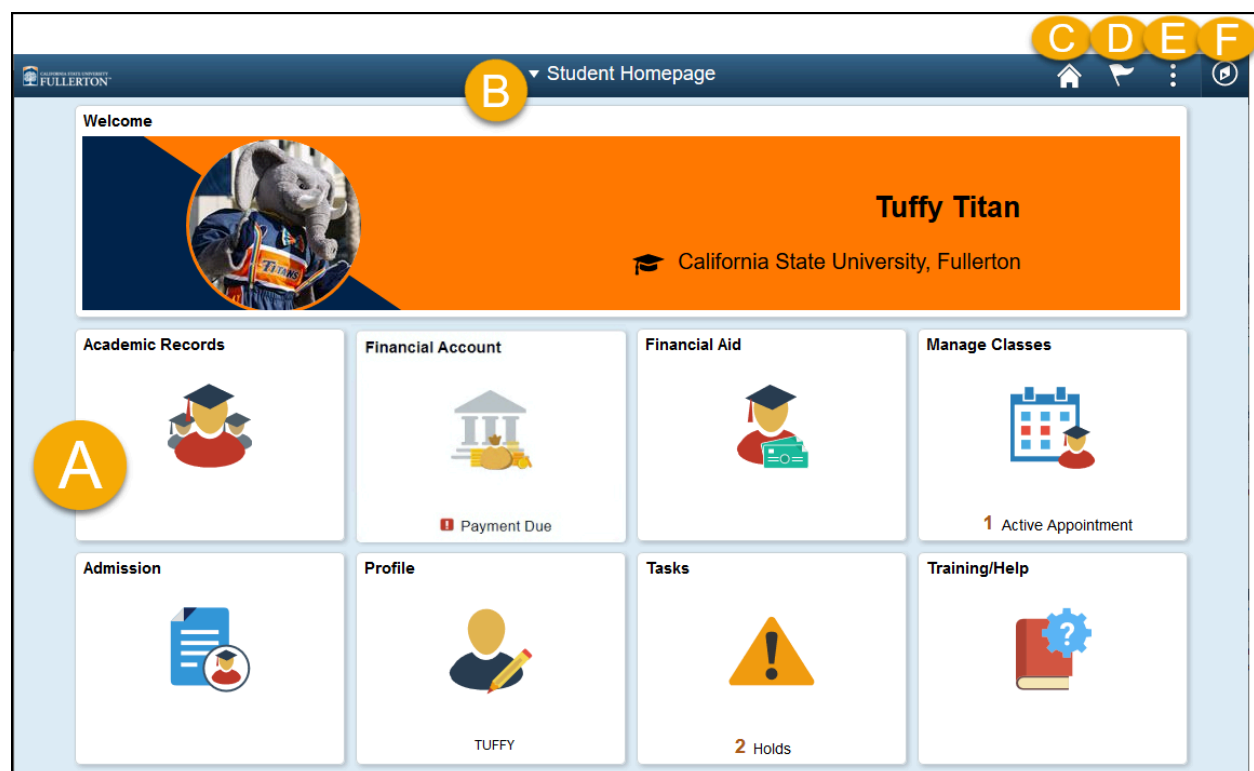

This article covers the basics of the fluid navigation on the Student Homepage in Titan Online.

Fluid navigation and mobile devices

Fluid navigation uses the the latest technology (HTML5, JavaScript, CSS3) to enable Titan Online fluid pages to scale gracefully from large screen devices such as desktops to the reduced viewing space of smartphones and tablets.

This means that the way you navigate stays consistent across devices, making it easier to access your Student Homepage from any device.

Using the NavBar

NavBar Options

Letter in Image Above	Name	Action
A	Personalize NavBar	View or edit your personal settings for the NavBar
B	Recent Places	View the recent menus that you have accessed
C	My Favorites	View or edit menus that you have added as favorites; an advantage of favorites is that you can give them a customized name (e.g., "Class Search and Enroll" can be saved as a favorite called "Register for Classes").
