Canceling a requisition will commit any changes made and prevent further changes. Continue? (10100,7)

When you mark a requisition as complete or canceled, the system does not allow any further changes to the requisition. Any changes made, however, will be stored on the requisition.

If you have any more changes to make to this requisition, do not mark it as complete or canceled at this time. Make the other changes, then return to change its status.

9. Click OK once the cancellation is complete.

The requisition is now canceled. It will not show up on the Find an Existing Value search, but you are able to view it using Document Status or on the Requisitions Report on the Purchasing dashboard in Data Warehouse/OBIEE.
